

when you need a 'plan b',
look up to the cloud.

Presenting
Disaster recovery solution from sify.

Having lost terra bytes of valuable data, companies around the world are on the lookout for a tailor-made data recovery solution that matches their needs and suits their budgets alike. Our best of breed platform and compliance driven disaster recovery solution based on pay-per-use model help companies achieve **60% saving** through:

- Minimal set up for 24/7 synchronization
- Full workload spend only during DR
- Multiple Scaling on demand

Besides the cloud based pay-per-use, our Disaster recovery solution is also available as a Dedicated DR model.
